## OBJECTIVE

Dynamic web app designer with three years of experience in developing user-centric web applications. Passionate about creating intuitive and visually appealing interfaces that enhance user experience and drive engagement. Skilled in front-end development, UI/UX design, and project management.

## SKILLS

HTML5, CSS3, JavaScript, React.js

## EXPERIENCE

### WEB APP DESIGNER - TECHSAVVY SOLUTIONS

- Designed and developed user-friendly web applications for clients across various industries.
- Implemented responsive design techniques to ensure optimal performance across desktop and mobile devices.
- Conducted user research and usability testing to gather feedback and iterate on designs for continuous improvement.
- Collaborated with cross-functional teams including developers, designers, and product managers to deliver high-quality solutions on time and within budget.
- Managed multiple projects simultaneously, from initial concept to final delivery, ensuring all requirements were met and stakeholders were satisfied.

### FRONT-END DEVELOPER - WEBWORKS INC.

- Developed interactive and visually appealing user interfaces for websites and web applications.
- Utilized modern front-end frameworks such as React.js to streamline development processes and enhance user experience.
- Worked closely with designers to translate mockups and wireframes into functional web pages, ensuring pixel-perfect implementation.
- Conducted code reviews and provided technical guidance to junior developers to maintain code quality and best practices.
- Contributed to the optimization of website performance and accessibility, improving loading times and usability for end users.

## EDUCATION

### BACHELOR OF COMPUTER SCIENCE - RYERSON UNIVERSITY

- Developed a progressive web app (PWA) for a local restaurant chain, enabling online ordering and table reservations.
- Designed a mobile-responsive e-commerce platform for a retail client, integrating with payment gateways and inventory management systems.
