Database Management: MySQL, PostgreSQL, MongoDB, Redis

Responsive Web Design

RESTful API Development

UI/UX Design Principles

E-commerce Integration

Version Control Systems: Git, SVN

Agile Development Methodologies

Excellent Problem-Solving and Communication Skills

EMPLOYMENT HISTORY

Senior Web Developer, Tech Solutions Inc., Austin

- Led a team of developers in designing and implementing web applications for clients across various industries.
- Developed custom solutions using modern front-end frameworks such as React.js and Angular, ensuring optimal performance and user experience.
- Designed and optimized database schemas, queries, and indexes for efficient data storage and retrieval.
- Integrated third-party APIs and payment gateways to enable e-commerce functionality and enhance user experience.
- Implemented responsive design techniques to ensure cross-platform compatibility and seamless user experience across devices.

Lead Full-Stack Developer, WebTech Innovations, San Francisco

- Spearheaded the development of a scalable web application platform from conception to launch, handling all aspects of the development lifecycle.
- Collaborated with cross-functional teams including designers, product managers, and QA engineers to define project requirements and deliver solutions that met business objectives.
- Implemented best practices for code quality, performance optimization, and security to ensure robust and reliable web applications.
- Mentored junior developers, conducted code reviews, and provided technical guidance and support to ensure project success.
- Stayed up-to-date with the latest web technologies and trends, continuously exploring new tools and frameworks to improve development processes and enhance product offerings.

ADVANCED SKILLS

Projects

- Developed a real-time chat application using WebSockets for instant messaging between users.
- Built a custom content management system (CMS) for managing and publishing website content, featuring a user-friendly interface and role-based access control.
- Created a progressive web app (PWA) for a client's e-commerce platform, enabling offline access and push notifications for enhanced user engagement.

Certifications

- AWS Certified Developer - Associate
- Google Certified Professional Cloud Developer

EDUCATION

Bachelor of Science in Computer Science, The University of Texas At Austin, Austin
